

Scholarships In Radiotherapy & Crestani Scholarships Training & Research program was founded in 2013 by Yvonne Crestani with a group of volunteers to raise funds for higher education of health professionals treating cancer patients. The program was established to coincide with the opening of the Central Coast Cancer Centre at Gosford Hospital

Equipment at the Central Coast Cancer Centre in Gosford Hospital

"State of the Art equipment requires State of the Art Personnel to administer the best possible treatment & safety."

2018 Awards ceremony Gosford Hospital Scholarship Recipients with Yvonne Crestani, Dr. Apsara Windsor & Hospital CEO Dr. Andrew Montague

Funding is specific with all money raised supporting Research & Education of health workers in the field of cancer treatment thus ensuring the best treatment available for patients on the Central Coast

This gives an opportunity to medical personnel such as radiotherapists, physicists, nurses and allied personnel at Gosford Hospital to upgrade their knowledge and technical skills.

Following our partnership with Newcastle University and The Australian College of Nursing, we have been able to expand our commitment to the Central Coast Cancer Centre at Gosford Hospital providing individualised Specialist Care for patients.
